

I belong to the American Leadership Academy!

I recognize that Knowledge is Power!

I am fortunate to live freely in the United States of America.

I emulate my dedicated, honest, forward-thinking and hard-working forefathers.

I must learn and benefit from their legacy of sacrifice and service.

I am a leader!

I choose to develop a strong moral character.

I am responsible for my own decisions and actions.

I have the power to control myself well in all situations.

I show respect for myself and others.

I love to learn!

I want to understand how and why.

I seek knowledge out of the best books and wherever it may be found.

I think deeply about the things that I learn.

I express my thoughts and carefully consider the thoughts of others.

I set a worthy example!

I must build upon the foundation of truth and excellence.

I shall use my knowledge to give back to the world what I have gained from living in it.

I have the power to set my sails and choose my course.

If it is to be, it is up to me!
