DRESS CODE POLICY

PURPOSE

American Leadership Academy's Board of Trustees believes the dress code was created to help promote unity by encouraging a sense of belonging and pride and helping discourage bullying, victimization and socio-economic discrimination. It reduces social pressure and peer conflicts and encourages students to concentrate more on their studies than on their wardrobe by creating a learning environment free of unnecessary distractions. The dress code promotes modesty and avoids pit falls of "cool" fads or styles. They believe it will encourage and enhance appropriate dress as students enter the world as young adults.
