

Pathway: Interior Design

Get the Facts:

Interior Designers are responsible for the interior design, decoration and functionality of a client's space whether the space is commercial, industrial, or residential.

They work closely with architects and clients to determine the structure of a space, the needs of the occupants, and the style that best suits both.

Workforce Trends:

Nationwide, employment of Interior Designers is projected to INCREASE 13 percent for all occupations through the year 2024. Economic expansion, growing homeowner wealth, and the need for homes being environmentally friendly and more easily accessible will increase demand for designers.

Keeping up to date with the newest design tools, such as the use of CAD design software will improve one's job prospects.

Interior Design is:

- High skill
- Medium wage
